

Precious Wall Finishes

Gold Gilding

Gold is associated with higher ideals, wisdom, understanding and enlightenment.

History of Gilding

To our contemporary knowledge gold gilding exists at least for 5,000 years and started with wrapping of gold foils around objects in Central Asia. 2,000 years ago purification of gold was developed in the Middle East as a result the Egyptians were able to make micro thin gold leafs. Our ancestors used different techniques from inserting the leaf into cut grooves, via animal adhesives to 1,500 years of fire/mercury-gilding till the 18th century ...

Gilding Protocol

We are using a range of gilding techniques depending on the object, there's water- & oil based size (glue), rabbit-skin glue and gelatine for glass gilding.

Nevertheless there's much more important steps involved than just sizing;

the surface needs to be prepared, sanded, sealed, smoothed with some coats of gypsum/gesso and clay-bole two coats of size, double leafing, burnishing, application of 2-coats shellac / lacquer and vanishing, plus as an option aging with antique patina / asphaltum ... all depends on our project.

Our Expertise is Architectural Gilding

Our profession is to transform mediocre spaces into beautiful uplifting areas of living and working.

Architectural Gilding plays an important part in the transformational process and it is our pleasure to bring this ancient technique into contemporary living environments.

Gold was and is since thousands of year back in our human history a sign of wealth and power, which you can often find displayed in significant places such as in churches, temples, on buddha statues, in castles... just to name a few.

Our aim is to boost the energy at your business or home and invite wealth into your life. "In our understanding wealth is not just about financial success but also includes the ability for you to create a life full of meaning, fulfilment and enhances your wellbeing"

Our method is the combination of a meaningful symbol of your choice, your name or the name of your company, words of wisdom with 24ct gold - white-gold and/or rose-gold, platinum ...

Gilding & Energy

"At the uppermost level, gold is associated with higher ideals, wisdom, understanding and enlightenment. It inspires knowledge, spirituality and a deep understanding of the self and the soul."

”The Love that is inside a product that is made by the Artisan with passion & love, this energy can not disappear and is always there...”
by Jean Claude Biver

A little bit about my history, the first twelve years I grew up right under the world longest castle in the medieval town of Burghausen on the Austrian border. Then we moved for ten years into the castle of Mickhausen and as expected I loved always to visit other castles, churches and museums in admiration of the displayed artwork and architecture. But not only I grew up in a castle I also was in charge to paint and renovate this and many other old buildings, since my family worked in real estate.

My upbringing equipped me with a diverse range of craftsmanship skills and the love to create inspiring places with precious metal leafs, colours & Marmorino Veneziano
